

**River Crossing Homeowners' Association
Architectural Control Committee (ACC)**

PO Box 14485, Mill Creek, WA 98082

rivercrossingacc@hotmail.com

More roofing material options for River Crossing were approved November 1, 2011. The added roofing choices were made to more closely align with the roofing materials that are approved in most of the rest of the city of Mill Creek. An application must be submitted to the ACC even if you are using an approved roofing material.

Approved roofing materials (all roofing material is to be natural wood tones, i.e., gray through brown —no green, blue, red, etc.):

- Cedar shakes
- Cedar shingles
- Classic Rustic Shingle (metal)
<http://www.classicmetalroofingsystems.com/rustic.php>
- EcoStar, shake or slate (rubber)
<https://ecostarllc.com/products/>
- EuroShake or EuroSlate Roofing (rubber)
<https://www.euroshieldroofing.com/products/ranchlands-shake/>
- Evershake (synthetic)
- Gerard-shake look alike (metal)
- Grand Canyon (by GAF--composition)
<http://www.gaf.com>
- Monier Lifetile, Cedarlite, and Duralite (concrete)
<https://www.boralroof.com/product-profile/concrete/madera-900/1MDCL3002/>
- Paramount Advantage (by PABCO--composition)
<https://www.pabcoroofing.com/signature-cut/paramount-advantage>
- Presidential TL Shake (by CertainTeed--composition)
<http://certainteed.com>
- Woodmoor Shingles (by Owens Corning--composition)
